

LIFETIME ACHIEVEMENT AWARD AWARDEE

Robert Nunnery
Transportation Security Administration

When TSA stood up in November 2002, Robert Nunnery was one of the first 300 employees hired. Mr. Nunnery began the arduous task of leading the initial group to set up a hiring plan, on board, and train this new workforce in the earliest days of the agency. For the past two decades, he has served several critical roles, and elevated TSA's mission capabilities. His reputation inside and outside of TSA is without peer. To TSA employees, our stakeholders, and our local DFW community, he demonstrates an exceptional ability to build programs from scratch, and create new relationships that develop into strong partnerships. Robert Nunnery's lifetime of work has demonstrated remarkable success due to his insight, dedication, entrepreneurial spirit, and commitment to the Mission of TSA.
